

# **MIKE ASHEY PRODUCTIONS**

**1/48 SCALE AVRO 1911 BIPLANE  
MANUFACTURER : PYRO  
MODEL BUILT BY : MIKE ASHEY**

## **KIT DESCRIPTION AND BUILDING NOTES**

The old model company Pyro, issued a series of early aircraft in 1/48 scale almost half a century ago. These kits are well detailed and a lot of fun to build. When Pyro went out of business, Life Like reissued them under their label. The only other company to make these types of aircraft was Renwal, however they issued them in 1/72 scale. This kit was built out of the box and it was rigged using nylon sewing thread painted with a black indelible marker. Testors model master enamel paint were used to paint and detail the model. For reference I used the 1960's movie "**Those Magnificent Men In Their Flying Machines**". Many of the Pyro/Life Like kits represented aircraft used in this movie.
