PRODUCTIONS**

**1/35 SCALE M-18 HELLCAT
MANUFACTURER : ACADEMY
MODEL BUILT BY : MIKE ASHEY**

**KIT DESCRIPTION
AND
BUILDING NOTES**

This kit was well detailed and easy to build. There is also a lot of interior detail. Model master enamel paints were mixed to achieve the faded olive drab colors. Various colors of pencil pastel dust were used for the exhaust stains and muzzle residue powder burns. The antenna is stiff brass wire painted with a black indelible marker.
