

**GERMAN PORSCHE TURRET, KING TIGER TANK
DRAGON 1/35 SCALE KIT
MODEL BY MIKE ASHEY**

This kit was a lot of fun to build. There were no fit issues and very few seams to fill. There were lots of small plastic parts which enhanced the surface detail. The kit supplied magic tracks snapped together perfectly and really improved the appearance of the model. I airbrushed Testors enamels and metalizer paints and weathered the model with pencil pastels applied with a soft wide brush.
