

MIKE ASHEY PRODUCTIONS

**1/35 SCALE M-110 SELF PROPELLED GUN
MANUFACTURER : ITALERI
MODEL BUILT BY : MIKE ASHEY**

KIT DESCRIPTION AND BUILDING NOTES

This model was built out of the box. Testors model master enamel paints were used and the edges and corners were highlighted by lightly dry brushing silver paint. Various colors of pencil pastel dust were used to simulate muzzle burns and engine exhaust stains. Clear nylon sewing thread was used to tie down the tracks so that they have the correct sag.
